

Introduction

Dear GMP Trainer:

Welcome to SkillsPlus International, Inc. We know that this GMP training experience that is informative and effective as well as enjoyable.

We are pleased to present this second edition of the "GMP Trainer's Survival Kit" designed to enable compliance trainers to maximize their resources for course development and address GMP issues in a timely manner.

The Kit's format allows the trainer to choose from more than forty (40) compliance topics, or mix and match subjects enabling customized training classes focused on specific GMP issues.

Content has been designed assuming trainers possess some subject matter experience. The material, with quizzes, discussion and activities, is certain to enhance GMP training goals.

In preparation for your classes, and to add credibility to your presentation, you may want to gather site and/or company-specific information related to the subject topic. Your preparation will be evident and your trainees will be pleased.

Good luck in your GMP training endeavors!

Allan
