- ◆ Three Levels of Training

Documentation

Wrap Up

Course Length: 51 Minutes includes time to take the final exam.

Times are estimates and vary depending on the speed of taking the course assessments. Quiz questions are presented twice, once for the practice quiz and once for the final exam. Quiz times are estimated at 0.75 minutes for each question. Individual student response times may vary.

Who should take this class? New employees or those who need a detailed look at the requirements for purchasing, maintaining or operating equipment.
