

Certification Requirements GMP Trainer Certification

Purpose: To prepare the instructor for training other employees at their company in the subject of Good Manufacturing Practice Regulations.

Competencies:

1. Demonstrate verbal communication through participation in class discussions.
2. Demonstrate breadth of GMP knowledge through responses to on line quiz questions.
3. Demonstrate skills at discussing GMP issues in group settings.
4. Demonstrate support for compliance through personal in class inquiry.
5. Demonstrate skills in teaching GMPs through practice teaching sessions.
6. Demonstrate activity facilitation in class.
7. Demonstrate classroom behavior management skills.

Prerequisite: Successful completion of GMP Essentials. This is accomplished through the first 2.0 days of the certification class in the same week or in a session prior to certification.
